

Jolly Phonics

Here is a Bingo grid with words from the story. The grid includes words that correspond to the Jolly Phonics Group 1-5 sounds. Print out the grid and hand one to each child. As you read the story, the kids can listen for the words on their Bingo cards and cover them as they hear them.

The first child to get a complete row, column, or diagonal covered calls out "Bingo!" and wins the game.

BINGO STORY

"Once upon a time, a cat named Sam went on a trip to a big hill. He found a red mug with tea and a bun on a mat. Suddenly, he heard a loud bang and saw a bug on a log. As he sat down, he saw the sun and a blue van in the distance. Sam's friend, the dog, ran over and gave him a hug, and they both watched the bright light fade into the night."
